SUMMARY

Highly motivated and process-driven engineering student passionate about business systems, workflow automation, and data structuring. Strong communicator with hands-on experience in mapping user processes, building operational dashboards, and automating manual workflows. Eager to transition technical problem-solving skills into Revenue Operations (RevOps) and CRM implementation. Thrives in remote, collaborative environments and possesses the critical thinking required to design, implement, and optimize business systems for international B2B clients.

SKILLS

RevOps & Systems: Workflow Automation, Business Process Mapping, Reporting & Dashboards, CRM Concepts
Data & Structuring: SQL, Excel, Python (Data Processing), Database Structuring (NoSQL)
Marketing & Ops: Marketing Outreach, Cross-Functional Collaboration, Funnel Optimization
Professional: Excellent English Communication, Independent Remote Execution, Problem Solving

PROJECTS

Client Management Dashboard (Real Estate Platform) 2025

Process & System Designer Individual Initiative

- **CRM Implementation Concepts:** Designed and structured a custom digital dashboard to track the client acquisition funnel and manage real estate property inquiries.
- **Business Process Mapping:** Mapped the end-to-end sales and marketing process, streamlining the customer journey from initial property search to inquiry submission.
- **Reporting & Data:** Engineered a secure backend database to manage real-time inventory updates and structure client data, directly mirroring modern B2B CRM environments.

Data Structuring & Workflow Automation System 2025

Data Operations Analyst Individual Initiative

- **Workflow Automation:** Identified a severe operational bottleneck and designed an automated script to sort, classify, and organize a massive dataset of over **10,000+ unstructured assets**.
- **Process Optimization:** Replaced a highly manual sorting process with a logic-based automation workflow, effectively reducing operational processing time by **90%**.
- **Data Structuring:** Structured messy, raw data into clean, reportable formats, demonstrating a strong aptitude for managing business data hygiene and system integrations.

User Process Mapping (NGO Connection Platform) 2024

Product Lead Group Initiative

- **Process Design:** Led a team to map the business logic and user workflows for a digital marketplace connecting non-profits (supply) with volunteers (demand).
- **System Integration:** Architected relational databases to track user engagement metrics, utilizing data to optimize the matching process and improve platform retention.

LEADERSHIP

Marketing & Operations Lead (Event Manager), EV Club 2023 – 2024

VIT Bhopal University Bhopal, MP

- **Marketing Exposure:** Spearheaded grassroots marketing campaigns, promotional communications, and outreach initiatives to successfully acquire and engage over **200+ event attendees**.
- **Stakeholder Communication:** Acted as the primary point of contact between academic faculty, external speakers, and student teams, utilizing excellent verbal and written communication skills.
- **Operations Management:** Designed and executed the operational workflows for large-scale events, identifying logistical gaps and optimizing resource allocation for seamless execution.

Team Lead, Performing Arts 2023 – 2025

VIT Bhopal University Bhopal, MP

- **Team Coordination:** Managed and directed a team of 15+ members, taking ownership of scheduling, continuous feedback, and high-quality execution under strict deadlines.

EDUCATION

VIT Bhopal University Bhopal, Madhya Pradesh

Bachelor of Technology in Computer Science and Engineering 2022 – Present

- **CGPA:** 7.3/10 — **Analytical Foundation:** Statistics & Probability, Database Management (SQL), Logical Reasoning.

Relevant Certifications: AWS Cloud Practitioner, MongoDB Database Admin Associate, Oracle OCI Foundations.
